

The 17th International Symposium on Polar Sciences:

Physioecological Responses to Climate Changes in Polar Regions

First Circular

Duration: May 26-28, 2010

Venue: KOPRI, Incheon, Korea

Website: symposium.kopri.re.kr

Korea Polar Research Institute (KOPRI) has held international polar symposium every year since 1994, giving an arena to integrate progresses in polar research. The 17th International Symposium on Polar Sciences will be held in Incheon, Korea, on May 26-28, 2010. The symposium will be focused on five themes: (1) Current status & changes in polar ecosystems, (2) Polar ocean & sea-ice ecosystems, (3) Polar terrestrial ecosystems, (4) Subarctic & arctic ecosystems, and (5) Stress responses of cold-adapted organisms under the banner of 'Physioecological responses to climate changes in Polar Regions.'

Major topics

- Current Status & Changes in Polar Ecosystems
- Polar Ocean & Sea-ice Ecosystems
- Polar Terrestrial Ecosystems
- Subarctic & Arctic Ecosystems
- Stress Responses of Cold-adapted Organisms

Key dates

- Abstract submission deadline: April 15
- Announcement of 2nd circular: May 1
- Registration: May 1
- Symposium: May 26-28

Call for papers

Participants wishing to present a paper/poster are requested to submit an extended abstract with references and figures (4 page limit).

Coordinators

- Sang H. Lee (sanglee@kopri.re.kr)
- Sung Gu Lee (holynine@kopri.re.kr)

Sponsored by Korea Polar Research Institute (KOPRI)
