

**Keynote talks on
Nutrient Cycle in the Arctic
21-22 October 2020
(09:00-12:00 UTC)**

**Appetizer
for the Ny-Ålesund
flagship
Nutrient Cycle
workshop**

Online keynote talks on the Nutrient Cycle in the Arctic linked to environmental change. The keynote talks are an appetizer for an open workshop on the same topic taking place in spring 2021 in Orvieto, Italy.

Both the online keynotes and the open workshop is part of a Ny-Ålesund joint flagship project aiming at understanding perturbations in nutrient cycles in the Arctic linked to ongoing environmental change. The nutrient cycling involves all compartments of the ecosystem and will also bring all four Ny-Ålesund flagship programs together.

Confirmed speakers include

Andy Hudson, UNIS: *Nutrient dynamics in glacial meltwaters entering Kongsfjorden*

Fran Gordillo, Uni Malaga: *Nutrient dynamics and their control of the biological production in the Kongsfjorden coastal system*

Pedro Duarte, NPI: *Abiotic and biotic driven nutrient exchanges in a high-latitude fjord - towards the quantification of Net Ecosystem Metabolism*
